

## Learning Theological and Congregational Leadership in Community

TEL programs provide progressive, accessible Christian theological education year-round through special courses and seminars for clergy, laity, and spiritual seekers from diverse racial/ethnic communities. Using PSR's "flexible learning" approach, TEL fosters a strong and supportive community environment while enabling participation at a distance through online learning.

All TEL offerings are multicultural and intersectional in design and focus. They are structured to allow you to be engaged at the level that works for you—for personal spiritual formation, lay leadership training, professional growth, or continuing education. A carefully selected curriculum of online experiences may be engaged individually, or as part of a certificate program. While rich in context and perspective and taught by instructors with years of academic and leadership experience, these offerings do not require graduate-level engagement. Past students have felt challenged yet "met where they are" and more than a few have continued into seminary education and completion of a Master of Divinity degree.

### CERTIFICATE IN THEOLOGICAL EDUCATION FOR LEADERSHIP

Our next offering is the yearlong **Certificate in Theological Education for Leadership (CTEL)** program. This well-received series has been revitalized to bring even more thoughtful and powerful examination of the ways that Christian teachings, sacred text, and prophetic witness can be brought to the

issues calling for Love and Justice in our world today.

Completion of the **Certificate in Theological Education for Leadership** requires participation in: **one Orientation** session, **two Seminar** sessions, and **eleven (11) Courses**:

- Each **Course** meets for 2 sessions, 3 hours each, with some reading and online work in between sessions.
- **Seminars** meet once only for 3 hours and may require some reading before the session begins.
- The **Orientation** session launches the certificate program and meets for 1.5-2 hours, as a way of meeting the TEL staff, answering your questions, and becoming familiar with technologies used and support resources available to you.
